

ROADSENSE - INDIVIDUAL DRIVER RISK ASSESSMENT (DESKTOP)

The following form provides you with a means to measure the relative exposure to risk of individual drivers and the environment they operate in. The scoring will indicate a range between Low and Very High risk for those assessed. Remember this is a combination of driver, vehicle and journey elements and you should consider carefully how best to target appropriate initiatives / training in order to meet your 'Duty of Care' towards employees and other persons that may be affected by your work related driving activities. Please note that this form is for guidance only. A more detailed on-line driver risk assessment service is available from RAC Risk Management. For further information visit: www.norwichunion.com/RiskManager/BasicUsers/Risk_Assessments/cntRiskAssessment.htm

The form is designed to enable you to meet your obligations under Regulation 3 of the Management of Health and Safety at Work Regulations 1999, which can be fully explored at www.norwichunion.com/RiskManager/BasicUsers/Risk_Assessments/cntRiskAssessment.htm

DRIVER RISK PROFILE
